**No. 5**  
**October 27, 2021**

Please refer to the FATF's publication "*Jurisdictions under Increased Monitoring – October 2021*" for the updated statements on these jurisdictions.

The FATF and FATF-style regional bodies (FSRBs) continue to work with the jurisdictions with strategic AML/CFT deficiencies listed above as they report on the progress made in addressing their strategic deficiencies.

The FATF calls on these jurisdictions to complete their action plans expeditiously and within the agreed timeframes. FATF will continue to closely monitor their progress.

While the FATF does not call for the application of enhanced due diligence measures to be applied to these jurisdictions, FATF encourages its members and all jurisdictions to consider the information presented in the full statement "*Jurisdictions under Increased Monitoring - October 2021*" in their risk analysis.

### **Jurisdictions no longer subject to increased monitoring:**

**Botswana** and **Mauritius** are no longer subject to the FATF's increased monitoring process having strengthened the effectiveness of their respective AML/CFT regimes and addressing related technical and strategic deficiencies identified by the FATF in October 2018 and February 2020 respectively.

Reporting entities should take the FATF statement into account when considering whether a particular transaction should be reported to the Financial Intelligence Unit (FIU) as a suspicious transaction under Section 18(4) of the Anti-Money Laundering and Countering the Financing of Terrorism (AMLCFT) Act 2009. Where a transaction is reportable under Regulation 12 of Regulations 2010 made under the AMLCFT Act as a threshold transaction, reporting entities should remember that a suspicious transaction report may be required in addition to the threshold report, where suspicion or reasonable grounds for suspicion exist that the funds, transaction or attempted transaction are linked or related to money laundering or terrorist financing offences, or the funds are linked to or is to be used for terrorist acts or by terrorist organisations.
